

Metal Price Trends, 2005-2025

An illustrative comparison at five-year intervals

The table shows a price index for four metals. A value of 100 represents the starting level in 2005; higher values indicate an increase since then.

Year	Gold	Silver	Copper	Titanium
2005	100	100	100	100
2010	175	135	180	120
2015	240	125	145	115
2020	340	165	155	130
2025	550	225	215	160

Note: These values are fictional examples for a document layout and tagging test. They are not historical market prices or investment data.
